VAMPIRELLA AND THE SCARLET LEGION

Their Name Is Legion

Vampirella may seem more than capable of dealing with supernatural threats and monstrous menaces on her own—but sometimes the horrors that threaten her world are so powerful that even Vampi needs a little help.

That's where the Scarlet Legion come into the picture.

But just who are the Scarlet Legion—other than the stars of *Joe Harris & José Malaga's* ***Vampirella and the Scarlet Legion,*** a five-issue limited series debuting in May? Harris had the answer to that question.

"The series is set prior to the events in ***Vampirella;*** it concerns the ancient dark prophecy involving the Mad God Chaos and his minions who seek to bring about their own particular brand of hell on earth. Nobody knows where Vampirella is, but when she's implicated in this prophecy, some of her old allies—along with a few enemies—band together to try and stop it... and, maybe, her.

"It's a pretty big story with a bit of a global sweep to it. We're going to be traipsing the globe on a really big quest with lots of widescreen action cut with some wrenching character moments and some really horrific moments. Who the bad guys and the good guys are will be shifting and evolving and Vampirella won't know who her friends are, who her enemies are and what the difference really is once we start digging into things."

Harris dug way back into Vampirella history to build the foundation for the series—and his digging uncovered The Crimson Chronicles. "The Crimson Chronicles go all the way back to Vampirella's original Warren Publications stories—which, for my money, are the glory days for the character. They're essentially the 'bible' for 'The Companions of Chaos,' cultists who worship the god Chaos as well as other gods in this dark hierarchy whom they're constantly seeking to resurrect via human sacrifice."

Is it fair, then, to describe the Crimson Chronicles as akin to Vampi's Necronomicon? "That characterization works for me," Harris said. "As Vampirella's history has unfurled and the decades have gone by, lots of writers have added to the mythology and sort of shaped concepts like The Crimson Chronicles to fit with the times. I know, for instance, *Kurt Busiek* had his take on the text in his 'Morning in America' ***Vampirella*** miniseries from way back.

"For ***Scarlet Legion,*** I'm seeking to get away from it being this dusty old book read by sorcerers in musty candlelit chambers by going back and exploring the origins of The Crimson Chronicles. In order to get to the bottom of the mystery in this new series, our heroes are going to have to discover and reassemble fragments of the original texts... the original 'Crimson Codex' which—like the lost texts of ancient Mayan society, or even something like The Dead Sea Scrolls—are something that have to be studied in order to fully comprehend what they mean. Some things have been lost in translation after millennia and it's what they discover at the outset of ***The Scarlet Legion,*** as well as what they continue to learn as the story winds on, that really sets the series' agenda."

So just who *are* the Scarlet Legion? "The Scarlet Legion are, at least to start, a sort of strike force sanctioned by the Vatican to battle the forces of Chaos," Harris said. "They've been convened at different times throughout history, I put forth, to do the sort of unholy and ungodly work even The Sisterhood (the Vatican-backed group of vampire-slaying nuns created by *Grant Morrison* and *Mark Millar* some years back) can't do. As I mentioned earlier, the group is going to be comprised of friends and foes brought together by fate, circumstance and even against some of their will. We're going to see lots of familiar faces, from Vampirella's oldest ally and confidant, Mordecai Pendragon, to demonic forces like Death's Dark Angel, as well as old loves like Adam Van Helsing, old adversaries such as Ethan Shroud, along with newer associations like the Chaos-tainted Chelsea Cantrell and the aforementioned Sisterhood."

Of course, these characters aren't necessarily going to view Vampirella as an ally. "From the very first encounter with the forces of Chaos, Vampirella has found herself standing in the way of these nefarious plans to sort of bring forth the old, terrible gods and unleash this terrible new age on the world. But what if there's more to it than that? What if Chaos *needs* Vampirella? What if she's always been part of their plans and she didn't even know it? What if, with every move she makes to counter the forces of evil, she's unwittingly doing their bidding? Now what if those machinations are finally coming to a head, and what if her friends and allies who've fought, bled and sometimes died with her in that service are made to realize the truth?

"That's where this miniseries is going. Vampirella has made a lot of enemies over the years, but nobody knows how and where to hurt her like her friends would. It's like in zombie movies when the survivors who've been through hell realize someone close to them, maybe someone they've known and loved for years, has been bitten. There's this terrible moment of realization and reflection on the part of the survivors and the newly infected... just before they turn on the bitten guy and hack him up to pieces before he can turn undead and kill them all.

"When it's realized that Vampirella is actually part of their plans, the good guys have to recalibrate and turn their crosshairs her way. Stopping Chaos is too vital a mission to let old friendships and alliances stand in the way. Vampirella is going to be hunted in this series and she's going to have to figure out the true nature of this prophecy and how she may, in fact, be doing the bad guys' work for them even as she tries to stay alive and clear her name."

Any chance that the Scarlet Legion might continue in their own title once this series wraps? "That would be the hope if the demand is there and the market will support it," Harris said. "I think Vampirella is a jewel of a comics property and the elements are all there. I'm just trying to pull some of them together into something compelling and broader than we might have seen so far."

Each writer seems to bring new elements to Vampirella's mythology—what does Harris hope to add? "I think we're going to get into this idea of destiny, prophecy, and purpose a bit. What if it wasn't an accident that brought Vampirella to this world, hooked her up with allies like the old magician, Pendragon and Adam Van Helsing? What if those early encounters with The Companions of Chaos weren't a matter of happenstance? What if it's all been because of some over-arching force at work? What if she's been fighting so long to be a savior when she's actually been furthering along this prophecy of Vampirella, the Destroyer? Can she break from this sort of pre-ordained path once she realizes what it is? Is that possible?

"I love themes like these—and dropping Vampirella in the middle of a cycle such as this, I think, ties together some of the seemingly disparate elements from her past a bit while offering something round and whole and new to her entire purpose. It's not a cataclysmic re-imagining of the character or her mission statement or anything like that... just a fresh, streamlined take on some of what's come before, with an eye on something new."

Is there an over-arcing Vampirella storyline that links the ongoing series, this mini, and any other Vampi projects in the works, or does each title stand on its own? "A little of both, actually," Dynamite editor *Joe Rybandt* said. "We're setting these up to be a part of the whole as well as functioning as stand-alone mini-series. The events of ***Vampirella & the Scarlet Legion*** take place before our ongoing series, and we're coordinating events and timelines with both writers. Joe's Scarlet Legion actually helps set the stage for the ongoing as such. As we roll out other companion projects, we'll be applying the same 'rules' them to as well."

What sold Harris on the idea of a ***Vampirella*** project? "I've wanted to work with Dynamite and *Nick Barrucci* for some time," he said. "We knew one another back in my early years writing at Marvel and, when they landed the ***Vampirella*** license, we started talking about what I might be able to bring to this. I've written both pretty big, 'team' projects in my Marvel days before leaving to go write horror movies. I'm hopeful I'll be able to sort of reinvest what I know and what I've done into a project that really adds something to the mythology."

Vampirella has already spawned a hit ongoing series and an popular series of reprint volumes for Dynamite; how did Dynamite manage to turn Vampi into such a successful franchise? "First and foremost, I think that knowing what had *not* been working before—which was having Vampirella be a pure T & A book—made it clear what we should avoid," publisher *Nick Barrucci* said. "While that approach worked well in the mid-90s, it has not worked since and definitely does *not* work today. We needed to ensure that we had a substantive story and backdrop and reasons to make it work. Stories that were written from her earlier tales by *Archie Goodwin* were a good start. If you look at those original stories—which are available in our ***Vampirella Archives***—you see that she was able to adapt in to any situation.

"Of course, finding a writer who can understand and appreciate the complexities of the mythology, helped as well—which is where writers *Eric Trautmann* and *Joe Harris* come into the picture. Both writers very much wanted to make Vampirella a character with depth, with personality, with *passion*—and we believe we're on the right course. And Dynamite is fortunate to have both on board, telling great stories that work well together. We are convinced Vampirella has tremendous untapped potential. We will be re-introducing characters from the original magazines, and fleshing out minor characters who have appeared during her forty year history."

Dynamite has an impressive array of talent working on a variety of projects; any chance that some of them might pay a visit to Vampirella's world in the future? "Many discussion are ongoing regarding quite a few high profile creators working with us on ***Vampirella***—but for right now, we wish to focus on the core ***Vampirella*** series and ***Vampirella and the Scarlet Legion***—but you can be sure that we will announce more before the year is out!"

Vampirella and the Scarlet Legion #1, a $3.99 comic featuring covers by *J. Scott Campbell, Sean Chen, & Billy Tucci,* is slated for mid-May release. Dynamite is also offering a "blood red" incentive cover by Chen, a black and white incentive cover by Tucci, and a "Vampirella and friends" incentive cover by Campbell. Check with the folks at your friendly neighborhood comic shop for info on incentive pricing and availability.

PREVIEWS

One Catalog. TONS of Cool Stuff.

From comic books to action figures, games to DVDs, there's something for everyone in the March issue of *PREVIEWS*!

COVER STORY

© 2011 DC Comics. All Rights Reserved.

FLASHPOINT #1
DC Comics
Geoff Johns and Andy Kubert drop Barry Allen into a nightmare when the Fastest Man Alive awakens at his desk... and discovers that the world as he knows it has changed. Trapped in an elseworld teetering on the brink of war, he must discover the source of the changes and set things right!

GLADSTONE'S SCHOOL FOR WORLD CONQUERORS #1
Image Comics
Gladstone's School teaches the basics to the next generation of super-villains. Writer Mark Andrew Smith and artists Armand Villavert and Carlos Carrasco, introduce us to Kid Nefarious, Mummy Girl, Martian Jones, Ghost Girl, and the Skull brothers, as they unearth the School's — and their parents' — hidden past!

420+ pages of cool stuff that starts shipping in May!

CHECK THESE OUT IN THE DECEMBER ISSUE:

Star Wars: Jedi—The Dark Side #1
Scott Allie and Mahmud Asrar reveal an early tale of Qui-Gon Jinn, set 21 years before Episode 1. In it, the Jedi master travels to the homeworld of his padawan, Xanatos (whose father is king), on a mission with far-reaching ramifications for the Jedi Order!

Static Shock #1
It's been nearly a decade since Virgil Ovid Hawkins, a.k.a. **Static Shock**, rocked the pages of his own comic book. Now he's back as DC Comics launches this new ongoing series from writer Felicia Henderson and artists Scott McDaniel and Jonathan Glapion!

The Rocketeer Adventures #1
Dave Stevens created *The Rocketeer* nearly 30 years ago to instant acclaim. Now IDW gathers together some of comic's most talented writers and artists to pay tribute to the man and his creation in this all-new adventure anthology series, capped off with a cover by Alex Ross!

'Breed III #1
Jim Starlin returns with the third chapter in the saga of the *'Breed*, as Ray Stoner realizes he can no longer hide from what he is: a monster. Returning to the mystical city of Elsewhere, Roy discovers much has changed... and for the worse.

X-Men Giant-Size #1
Christopher Yost and Paco Medina reveal a horrible secret from the X-Men's past... locked away in the dark corner of Cyclops' mind until the present. What event triggers this grim remembrance? Witness the astonishing debut of the Evolutionaries!
